

**Food approval declaration:**

The bottles we manufacture are made of Polyethylene Lupolen 3010D, the caps we manufacture are made of Polypropylene Moplen EP548R and the pull lids are made from Eva copolymer ML40.

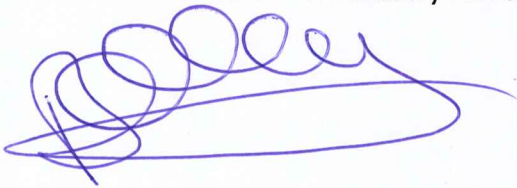

Polyethylene, Polypropylene and copolymer are materials that are food approved. In the enclosure you find a certificate of compliance for the material Polyethylene, Polypropylene and copolymer. It states Polyethylene, Polypropylene and copolymer complies with the conditions of material that come in contact with food. Polyethylene, Polypropylene and copolymer can be recycled.

This product fulfils the requirements on materials used for articles or components of articles intended to come into contact with food as described in **EU Regulation (EC) No 1935/2004** and Commission Directives 2002/72/EC, 2004/1/EC, 2004/19/EC, 2005/79/EC and 2011/10 up to and including the amendment (EU) Regulations No 321/2011.

The colour pigments we use are food approved as well.

We herewith declare that we only use Polyethylene and Polypropylene from YondellBassell, the copolymer from Versalis and we use the colour pigments from Color Service and Helian (Peter Holland).
